DETAILED ACTION

Response to Amendment

The Applicant has amended the independent claims 21 and 24 to incorporate the previously-indicated allowable subject matter of claims 28 and 30, respectively. As such, the after final amendment dated 11 January 2010 places the application in condition for allowance and will be entered accordingly.

Allowable Subject Matter

Claims 21 – 27, 29, and 31 – 40 are allowed.

Independent claims 21 and 24 include elements that were previously indicated as allowable subject matter. A complete rationale of the reasons for allowance can, therefore, be found in a previous Office Action.

Claims 35 and 40, previously withdrawn from consideration as a result of a restriction requirement, require all the limitations of an allowable claim. Pursuant to the procedures set forth in MPEP § 821.04(a), **the restriction requirement between species I and II, as set forth in the Office action mailed on 03 June 2009, is hereby withdrawn** and claims 35 and 40 are hereby rejoined and fully examined for patentability under 37 CFR 1.104. In view of the withdrawal of the restriction requirement, applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is

allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.
